

where nature can nurture your business

Nestled in the peaceful,
scenic surroundings of Hartley Farm in Winsley,
our office locations offer more than just beautiful views,
they deliver real productivity advantages.

While we could share numerous studies showing that offices located in rural areas benefit from fewer distractions, reduced commute stress, and enhanced employee well-being what we truly appreciate about Lifework's location is its excellent connectivity to the region's business hubs while maintaining a tranquil atmosphere.

Away from lengthy commutes into crowded cities, both the team and guests can unwind, knowing that everything they need is right on site. With access to a restaurant, farm shop, and ample opportunities for lunchtime walks in Wiltshire, you truly experience the "best of both worlds" without needing to leave the premises without leaving your space.

connections beyond wi-fi

At lifework, community is what we're all about. Every month, we get together for a relaxed morning of pastries (our treat!) and a shared lunch with an inspiring guest speaker. As part of the lifework family, you're invited to join in at not just these catch-ups, but all of our events completely free.

Soon we will have a full calendar of creative goings on, from yoga sessions and makers markets to hands-on workshops and chilled vinyl evenings. It's all about bringing people together, sparking ideas, and making your work life ... lifework.
