## Household Membership

Whether it's your partner, house mate or family there are always little distractions, wi-fi or space issues that affect productivity as you both navigate working from home.

We have created a flexible membership that allows two members of the same household to buy one membership and split those days between them at lifework.

Make the most of the week and use it with our split day system, offering morning or afternoon sessions perfect for drop off and pick up times!

Minimum two days a week membership required.
